Specification Clause

The ACO shower channel and grate system shall be ABS plastic (channel) and stainless steel grade 304 (grate) as manufactured by ACO Polymer Products, Inc. USA. Grate shall be manufactured from grade 304 stainless steel with "Wavy" slot style.

Shower channels shall be 70mm (2.75") wide, with length specified on Architect's plans / Architect's specification. Outlet spigot (O.D.) diameter shall be 51mm (2.0").

Connection to plumbing shall be either with 2" NPS threaded coupling (supplied with outlet) that shall be solvent welded to the outlet spigot* / 2" no-hub adjustable coupling (available from ACO or others)*, or a solvent weld connection*.

ACO recommends checking local plumbing codes prior to installation.

The system shall be installed in accordance with the manufacturer's instructions and recommendations.

*Delete as necessary
